

# 5700 Series Professional Currency Counter with ValuCount™

## A back loader with the ergonomics of a top loader

The Cassida 5700 Professional Bill Counter incorporates the industry's first bill turner design, combining the ergonomics of a top loading bill counter with the economical design of a back loader. With its wide range of features, the 5700 is a great all-around bill counter for organizations that process large amounts of currency.

### Value calculation and more

ValuCount™ uses the denomination selected by the user to calculate the dollar value of the count. By activating ValuCount in the add mode, you can count different denominations while keeping track of the total value. The Cassida 5700 also offers add, count, batch, and add + batch modes, making it the perfect choice when all-around performance is a requirement.

### Designed with the user in mind

The 5700's innovative bill turners push bills directly into the hopper, eliminating the need for bills to be manually flipped, which is an industry first. Counting begins automatically when bills are placed on the hopper platform, similar to a top load counter. A large LED screen showcases the number of bills counted, as well as denominations and total count values, when using the available ValuCount feature.

### Counterfeit detection built-in

Ultraviolet (UV and UV/MG models), and magnetic sensors (UV/MG model) are able to detect a wide range of counterfeit bills. Once a counterfeit is detected, the 5700 stops the count and dispenses the suspect bill into its stacker for removal.

### Count anywhere

Accuracy, reliability, and ease of use are not the only advantages of the 5700; its lightweight, compact design and integrated carrying handle make it easy to take it on the go, allowing you to count currency anywhere.

**ValuCount™ calculates dollar amount**

**Innovative hopper system**

## Product Specs

Model range:	5700UV 5700UV/MG
Dimensions, unit:	11" w x 10.7" d x 8.3" h (279mm x 272mm x 210mm)
Weight:	13 lbs (6 kg)
Power input:	110 VAC 50-60Hz
Power consumption:	<80 watts
Warranty:	1 year limited warranty

## Counting Specs

Counting speed:	1300 bills/minute
Hopper capacity:	250 bills
Stacker capacity:	250 bills

## Operating Modes

Count:	simple count
Batch:	0-999, increments of 5
Add:	0 – 9,999; adds up all counts
Add+batch:	adds up all counts while batching
ValuCount™:	calculates the dollar value of the count
Error detection:	half, double, chain
Counterfeit detection:	UV (UV and UV/MG models) MG (UV/MG model only)
