

C500 Coin Counter/Off-Sorter

Giant Features in a Compact Counter

The Cassida C500 combines the features most demanded in a coin counter into one tough, compact, and portable machine. One of the smallest and fastest compact coin counters on the market, it's the perfect choice for any application where durability, portability, and small storage and operating footprints are required.

▪ **Fast, Accurate, and Reliable**

The C500 accurately counts and bags multiple denominations from its 4,000-coin hopper at over 2,000 coins per minute.

▪ **Off-Sorting, Adding and Batching**

The C500 includes all the counting modes you would expect to find on larger machines, plus a memory function. Off-sorting feature, available in all modes, allows counting of one denomination while sorting out all other coins.

▪ **Works with Foreign Coins or Tokens**

An easy-to-use coin dimension adjustment allows the C500 to work with just about any tokens or coins, including Canadian and Mexican.

▪ **Optional DC to AC Power Inverter**

The optional car adapter is the perfect accessory when workspace and access to AC outlets is limited.

Sturdy & Reliable

Compact & Portable

Product Specs

Size:	8.9" W x 15" D x 7.3" H (226mm x 381mm x 185mm)
Weight:	16.5 lbs (7.5 kg)
Power Input:	110 VAC 60Hz
Power Consumption:	60W
Warranty:	1 year full parts and labor warranty

Counting Specs

Counting speed:	over 2000 coins/min
Coin hopper capacity:	up to 4000 coins (dimes)
Countable coin thickness:	0.04" - 0.13" (1.01mm - 3.3mm)
