Cassida Corporation Announces Counterfeit Shield Guarantee

Tualatin, OR — Cassida (<http://www.cassidausa.com>), a world leader in money handling equipment, announced today a new program designed to protect its customers even further from counterfeit currency. The program is called the Counterfeit Shield Guarantee and applies to one of their most advanced counterfeit detection products, the Cassida 3300. Cassida will reimburse the full face value of a counterfeit bill should a registered customer's Cassida 3300 accept it as genuine.

“We don’t expect to see any events where the 3300 will accept a counterfeit note as genuine, however, we want to convey the degree of trust that we have in our products. Cassida, as always, stands with our customers.” said Matt Goldfain, Product Manager at Cassida North America.

The program applies to all Cassida 3300 units purchased after August 15th 2013. To qualify, customers will need to register their Cassida 3300 in the Counterfeit Shield Guarantee program within 60 calendar days of the Purchase Date. Once registered, a customer can submit a claim and Cassida will issue a payment within 72 hours.

For more information regarding the Counterfeit Shield Guarantee and to register a Cassida 3300, go to the following URL: <http://cassidausa.com/shield-registration.html>

About Cassida Corporation
